

Sample Architecture Internship Placements

Below is a sample list of recent architecture internship placements. Our internship options are not limited to this list and we will continue to explore options until you are excited about your placement.

Company	Description	Possible Internship Position
	<p>Israelevitz Architects is a boutique architecture firm specializing in the design and renovation of luxury homes. For more than fifteen years we've been mastering the planning and creation of luxurious houses and pampering living spaces.</p> <p>Our tight work processes are translated into meticulous and professional planning assuring quick and accurate work in the field, with minimal changes and coordinated continuity between architectural stages and internal design, all under one roof.</p>	<p>Position Title: Architecture Intern</p> <p>Internship Description: Intern will use preliminary sketches, California zoning codes, and slope contour maps to conduct a topographic survey with a slope analysis for the construction of two luxury homes in the Alta Mesa Valley. You will also develop plans elevations, and sections according to sketches, and work with firm architects and visualization artists to create 3D renderings.</p> <p>Requirements: Background/education in Architecture is necessary.</p>
	<p>In 1999, Irene Kronenberg and Alon Baranowitz founded Bkarch Studio. Their combined experience meant that they could apply their design solutions to projects of varying scales, from the micro to the macro. Baranowitz + Kronenberg consists of a group of talented architects and designers, all of whom have graduated from institutions around the globe, bringing their worldly cultural experience to our studio's creative work activity.</p>	<p>Position Title: Architectural Intern</p> <p>Internship Description: Intern will be involved in many projects around the world, including the W Hotel in Amsterdam, Sacks in Eilat, and Boutique Hotel in Ibiza. Intern will render and make models of building, using space planning, 3D modeling, construction documents, and organizing drawing in CAD.</p> <p>Requirements: Knowledge of and experience in various programs, such as AutoCAD, Rhino3D, Photoshop, as well as experience in rendering and making models.</p>
	<p>WAWA is a consultancy firm for sustainable planning and green architecture. We offer our clients a comprehensive solution for green building projects using a variety of advanced methods for building planning and performance analysis. We combine passive architectural solutions with technological solutions adapted to climatic, topographical, and environmental project conditions. These provide a functionally efficient, optimal, convenient, and healthy working and living environment.</p>	<p>Position Title: Architecture Intern</p> <p>Internship Description: Intern will assess building models that are drawn up by the architects and run lighting simulations to demonstrate the amount of natural light that a design will receive. This information is put into a climate report that is given to clients.</p> <p>Requirements: Architecture degree is required.</p>
